Stucco	
Tile/Stonework	
Trees/Palms	
Walls/Columns	
Waterfall/Water-feature	
Misc.	

I have received a final walk through with a GPL representative and understand the importance of monitoring my watering schedules according to temperature and seasons. I understand the importance of fertilization, ensuring a healthy root system for better visual appearance of leaf foliage and flowers. This is to be part of my routine maintenance. It is my responsibility to regulate my irrigation system and I have been given a complete demonstration of my irrigation timer. I hereby accept the landscape provided by green Planet Landscaping and approve all material supplied. I understand the warranty as outlined in my proposal and agree proper care and maintenance are required to ensure a beautiful landscape.
